COUNCIL MEETING SHORT SESSION LAST NIGHT

Police Magistrate May be Appointed Soon. Peculiar Accident to City Employee.

The dove of peace hovered over the council table last evening, and harmony prevailed throughout the session. Little time was wasted in useless discussion, and to adjournment was reached much earlier than usual.

Aldermen McFarland and Hubert are still out of town, but the other members were in their places. The secretary-treasurer was an absentee, his place being taken by his son and assistant R. Clarke.

Among the original communications read was one from E. L. Chudleigh, district superintendent of the C. P. R. in connection with a letter from the Mayor suggesting that the company lay cement sidewalks along the right of way to connect with the new walks laid by the city on Whyte Avenue. The report was to the effect that the C. P. R. could not comply with the request.

A letter was read from the Mayor recommending that a license be imposed on sellers of tobacco, cigarettes and cigars, so that more restriction might be placed upon the sale of these articles. The Mayor stated that the cigarette evil was, in his opinion, very prevalent in Strathcona, and that something was done to put a stop to the sale of them to boys.

A suggestion was made that the matter be referred to a committee, but the Mayor interrupted a remark to the effect that if this were done nothing more would be heard of it for a year, so the communication was laid on the table for consideration later.

However, when it was taken up at the meeting adjourned it was referred to the committee on bylaws to report.

The Winnipeg Rubber Co. wrote stating that the hose wagon for the fire brigade would be shipped about the end of August.

The following accounts were referred to committees to be paid if found correct:

Canadian Westinghouse Co.	\$ 911.97
General Electric Co.	5100.99
Strathcona Cattle Co.	5.75
Gordon & Gilson	2.35
Elliot Bros.	21.50
C. & F. Flaherty	119.37
Harrison Engine Packing Co.	119.37
Jim Lee	6.80
Strathcona Coal Co.	818.50
Shore & Lumsden	429.25
Chandler & Fisher	60.71
C. P. R.	72.00
Herald Co. Ltd.	2.50
Canadian Oil Co.	11.55
Imperial Oil Co.	11.55
McLean & Co.	139.55

The question of the payment of the account for the wages of the fire brigade team again came up. The Mayor stated that the team had now left without notice and had through his legal representative threatened an action against the city for the amount of his wages. A new team had been temporarily appointed at a salary of \$50 a month.

Nothing was done in the matter, as the committee to which the matter had been referred was not in a position to report.

The City Engineer reported that he had notified Messrs Peterson & Fullam of the acceptance of their tender for street signs, and that 390 new plates would be required. The report was accepted.

A very curious accident and its sequel engaged the attention of the council for a few minutes. Last week a couple of men engaged in the sewer department were working at the sewer outlet, and the department foreman, who was at several other points in the city, heard a third man down with a message. As the messenger commenced the steep ascent of the river bank on his return journey he had to pass a stump or post on the top of which was lying a small piece of clay. This clay was lying behind him with his hand as he passed, and it fell into a pot of hot tar alongside which one of the men named Allen was standing. Allen's hand was splashed by the tar and burned, but the injury did not appear serious at the time; after having been treated by the acting medical officer, Alderman MacKenzie, the man who had been the victim of the accident, was able to work again in a day or two. However, the wound commenced to fester and Allen is still under the doctor's care. The

SPORTS

Baseball

Capitals Still Go Ahead

Both games of the double header in Edmonton yesterday went to the home team. The first was full of errors on the part of the southerners, and was easy for the Capitals, who ran up a score of eight to nothing.

The second game was closer, the score at the finish being two to one. Edmonton took the lead at the start but could not hold it to their score afterwards, and Calgary did not score until the sixth inning.

Pickens pitched both games for the Capitals, and was up to the work all the time. He only allowed five hits in the afternoon game and six in the evening. Kincaid and McCallum pitched for Calgary in the afternoon and Barnard in the evening.

Scores:

First game—
Edmonton.....0 2 0 0 0 1 0 X-8
Calgary.....0 0 0 0 0 0 0 0-0

Second game—
Edmonton.....0 2 0 0 0 0 0 X-2
Calgary.....0 0 0 0 1 0 0 0-1

Hatters Beat Lethbridge

Lethbridge August 20.—The Hatters beat Lethbridge today to the tune of 10-0. Heavy hitting and poor fielding on both sides were the principal features of the game, which was on the whole a rather poor exhibition of baseball.

Score by innings:

Medicine Hat.....	4	2	0	0	0	2	0	10
Lethbridge.....	0	2	1	0	0	2	0	5

Lacrosse

Strathcona Defeated at Calgary

Calgary, August 20.—Before a large and enthusiastic crowd the home team succeeded in administering a defeat to the stick hinders from Strathcona, the score at the finish being 4-2. The game was fast and fairly free from rough house work, the referees, Mr. Edmunds, of High River, watching closely for anything approaching dirty tactics.

In the first quarter Strathcona had a slight advantage and scored a goal. The second was in favor of Calgary, and little time came with an even score on all sides. In the third period the home team got a couple of goals, whilst the visitors scored none.

Play started late and ended in moonlight.

The teams lined up as follows:

Strathcona	Goal	Calgary
Malone	Point	Powell
Parsons	Cover Point	Powers
Jamieson	Defence Field	Dunn
Ludlow	Centre	Reynolds
Woods	Centre	McDonald
Horrobin	Home Field	Ross
Kent	Outside Home	Curtis
Douglas	Outside Home	Anderson
McKay	Outside Home	Moir
Elliott	Inside Home	Laing
Claridge	Inside Home	Dodd

Revolution Spreading in China

Berlin, Aug. 20.—A despatch from Shanghai says the situation, especially in Yangtze Valley, continues unsatisfactory. The revolutionary movement gains daily, and secret organizations are growing.

New Name for Twin Cities

Toronto, Aug. 20.—"We ate" has been selected by a majority of the judges as an appropriate name for the twin cities of Port Arthur and Fort William when they shall come together.

Another Lively Bourassa Meeting

St. Hyacinthe, Que., August 20.—A lively political debate between Henri Bourassa and his supporters on the one hand, and representatives of the government on the other, took place here yesterday. The member for Laballe, assisted by Ernest Terres and Joseph Blaisville, two young barons of Montreal, thundered over an hour and a half on the political misdeeds of the government, while Ad. D. Bourcard, proprietor of the local Liberal organ, L'Union, Beaumont, M. P., and Joseph Morin, M. P., for this constituency, and Anselme Martin, advocate, defended the government. Contrary to a French idiom of Montreal, which had announced that the independent member would himself meet the same reception as at Quebec two weeks ago, when he was pelted with stones, there was not the slightest disturbance. The gathering which numbered from five to six thousand people, was made up of opposite political factions. More than one half of those present were Conservatives. A large contingent of the sympathizers from Montreal and other places accompanied the orator.

The speeches were characterized by scurrilous personalities and by a number of vituperative epithets, such as "Political scoundrel," "Many animals," "Wolf in lamb's garb," "Notorious rascal," "Thief," and "Political adventurer," which provoked a lively and free discussion.

A letter was read at the meeting from Sir Wilfrid Laurier, denying that Bourassa was one of his friends, and that he was in favor of his platform, or had authorized any one to use his name in connection with the demonstration.

Small Blaze at Parliament Buildings

Ottawa, Aug. 20.—The main building of the parliament group had a narrow escape of what might have proved a destructive fire last night. The telephone and electric light wires above the front basement entrance on Ottawa street got crossed in some way and an electric spark set fire to the door, which was blanked merely when fortunately discovered by a watchman just in time to prevent a serious conflagration. Today all the telephones on the senate side are out of business owing to the burning of the wires in the fire.

London Despatch

London, Aug. 21.—In the House of Commons Winston Churchill stated the representations of the British Manufacturers in reference to the hardship entailed in consequence of the new tariff coming into operation without notice had been called to the attention of the Australian Government, who had not yet replied.

Herbert H. Asquith, replying to the allegation that the Transvaal loan bill is invidious and in the form of a colonial preference, said no communication reached the government from any responsible authorities throughout the Empire in protest or criticism of the loan. The truth was that the self governing colony regarded the matter from the same point of view as the government, viz. that the guarantee loan was an inevitable, though an unforeseen consequence of the war, wherein they played so conspicuous and honorable a part and as a necessary incident of the completion of the settlement, which settlement was all known from the language of Premier Laurier had been ratified by practically a unanimous sentiment of all self-governing colonies of the Empire.

The second reading of the bill was carried by a majority of 157.

Trying to Shut Out Standard Oil

St. Paul, Aug. 20.—Within a few days the state of Minnesota will institute proceedings against the Standard Oil Company, in an attempt to stop the company from the state because of alleged violations of the anti-trust law. The Standard Oil Company, which is the largest oil company in the world, has been accused of monopolizing the oil business in the state. The state has been accused of monopolizing the oil business in the state.

Seventy-Eight Cars Passed Over Him

Kenora, Aug. 20.—Last evening about 9.45, a young Scotchman, named Finlay McArthur, employed as teamster by Foley Bros. & Larson, was struck by a freight train at Ruston, fifteen miles west of here. Seventy-eight cars passed over him. He was brought into Kenora last night on the No. 2, but died on the way to the hospital. Deceased was 28 years old and a native of Nova Scotia, where his father, Donald McArthur, resides. Conductor Chapman has been notified and an inquest will be held this afternoon.

Minister Drank at Bar

Peterboro, Aug. 20.—At the service of a St. Andrews Presbyterian church, the pastor, J. G. Foster, made a strong denunciation of church members. He charged the minister of another Presbyterian church in the city with being seen drinking at a bar of summer resort hotel at Burleigh Falls. Story Lake declared that this conclusion of affairs was intolerable and denounced church members. He charged the minister of another Presbyterian church in the city with being seen drinking at a bar of summer resort hotel at Burleigh Falls. Story Lake declared that this conclusion of affairs was intolerable and denounced church members. He charged the minister of another Presbyterian church in the city with being seen drinking at a bar of summer resort hotel at Burleigh Falls. Story Lake declared that this conclusion of affairs was intolerable and denounced church members.

WILL C.P.R. OPERATORS ALSO BE CALLED OUT?

Fear is Expressed That This May Happen if Business With American Lines is Still Handled.

Winnipeg, Man., Aug. 20.—Locally the strike of the telegraphers has assumed an aspect somewhat more serious than hitherto. It is announced from Montreal that an ultimatum has been submitted to the company by the Canadian Pacific operators to the effect that they will not handle any business from American lines which could be considered to be prejudicial to the interests of the men now on strike in that country and in parts of Canada. Some business has been handled by contract with American lines and the operators now claim that this must cease or there will be a walkout. It is claimed by officials of the company that there is

Our Foreign Trade

Ottawa, Aug. 20.—Returns of the foreign trade of the Dominion for the twelve months to the end of June, have just been compiled by the Dominion Bureau of Statistics and show a remarkable increase in imports over the record of 1906. The imports from all British countries amounted to \$127,902,088, which is an increase of \$54,729,038 over the previous year. The imports of \$554,450,435 represented a gain of \$41,138,025 over the exports of \$513,317,403. The imports from Great Britain of \$89,067,350 represented a gain of \$18,891,161. The imports from all British countries amounted to \$127,902,088, which is an increase of \$54,729,038 over the previous year. Moors Repulsed Again

Cambranes, Aug. 20.—A large force of Moors, who had descended upon the French camp early Sunday, had been driven off after a sharp conflict. The tribesmen advanced to within eight hundred yards of the French camp. Gen. Drude sent against them, under cover of the guns of the warships, a detachment of Algerian "Spahis." Arab horsemen in the French service, who were fighting over a front of about fifteen miles and lost from 7 to 11 a. m. The French used field and machine guns with deadly effect in repelling the attack of the Moors, and shells from the cruiser Gallies also did effective service. The Arabs have retreated a considerable distance but the renewal of the attack is expected.

Adding to Directorate

Toronto, Aug. 19.—A cable message from R. N. Travers, general manager of the Farmer's Bank, New in London, says Right Hon. Viscount Templeton, Col. Sir Chas. B. Ewan Smith and Henry Higgins, have been added as directors of the bank formerly a London committee.

Ticks of the Telegraph

(Special to the Chronicle)

William Hope, a pioneer of Carberry, Man., is dead at Red Deer.

Another party of wandering Doukhobors have arrived at Minnesota, Man. The Doukhobors are to be indicted for disregarding an injunction of the court.

The Vancouver bar is preparing for the impeachment of Mr. Justice Martin. An Ottawa despatch says the Western Liberals are urging that Mr. Sifton be taken back into the Cabinet.

The Canadian Manufacturers' Association has petitioned the government to change Thanksgiving day from Thursday to Monday.

A clerk in an Ottawa store, supposed to have been pillored in London, was brought on to the ship. It was also stated that Geo. C. Gibbons, K. C., will be a candidate and will enter the cabinet. Mr. Gibbons is in Maine and could not be seen.

Mr. Gibbons was president of the Labor Association during the Hyman Campaign and when put in the witness box at the trial of the petition against the late Minister of Public Works, confessed the carnival of corruption and villainy by the statement that both sides had corrupted the London electorate from the memorial.

CURRENT COMMENT.

The Toronto News, the managing editor of which is J. S. Willson, formerly of the Globe, thus sums up the Departmental situation at Ottawa. The independence of the News no man of fairness questions and its opinion is for that reason the more valuable.

INACTIVE DEPARTMENTS

The Ottawa Government shows a marked decline in administrative efficiency. During the next few years we must raise from \$125,000,000 to \$150,000,000 for the renewal of loans and for the construction of the national transcontinental railway. The Finance Department, however, has made no preparation to finance this enormous volume of obligations, although for several years it has been clear that we must soon reach the end of a long period of inflation and that with the return of short money and industrial stagnation the money markets would be vastly more unfavorable for such great transactions as the Government must undertake.

The Department of the Interior has lost much of its snap and energy, while the Oliver Land Bill shows a total misapprehension of Western needs and conditions. In the Post Office Department the failure in administrative efficiency is still more noticeable. The Manitoba Free Press has established the complete breakdown of the postal service in Western Canada. The case made by The Free Press is supported by the newspapers of other Western centres and by the almost universal experience of merchants and manufacturers doing business in the Western Provinces. It is said that on a new branch railway which has been operated for months, no railway mail car is yet carried, on the feeble ground that certain stage contracts have not been terminated. Many communities have a weekly service which should receive their mails at least tri-weekly, and many have to submit to three mails a week which should receive a daily service. In the old Provinces many of the offices are undermanned, and despite the best efforts of postmen and other officials, it is impossible to keep pace with the business. Hence very often circulars and printed matter are not promptly delivered, and the public do not receive the service to which they are entitled in the terms of the postal regulations.

It has to be remembered that the Postoffice Department is not starved, but is rolling in money. The surplus on last year's operations reached a million of dollars. Now it is doubtful if the Postoffice Department has any business with a surplus. It never was intended that the postal service should be a taxing agency. No one desires to return to the old days of deficits, but certainly the full earnings of the department should go into reduction of postal charges and into the improvement and extension of postal facilities. It may be impossible for many years to come to introduce rural free delivery in Canada. The cost would be enormous and the political difficulties serious. There would be a certain injustice in giving free delivery to some communities and withholding it from others, while an universal application of the system is wholly out of the question. It is possible, however, to restore the old one-cent drop-letter system in cities, towns and villages, to make the distributing offices properly, to give fair salaries to rural postmen and officials of the departments generally and to provide in Northern Ontario and the Western Provinces a thoroughly efficient service, keeping pace with the march of settlement and ensuring speedy and satisfactory postal intercommunication between the new communities and older Canada.

TWO NOBLE CHARITIES

(Toronto News)

In Kamloops there is a comfortable home for Old Prospectors. It was built and it is maintained by the British Columbia Government as a recognition of what the Province owes to those hardy pioneers who roam over the rocky heights of the West in search for precious metals. That search is often a vain one. Yet in a spirit of radiant optimism the prospector toils on and on until age and hardship leave him a physical wreck. Then the Government steps in and provides him with rest and comfort. For it is not often that a pro-

pector "attires it rich," and makes his fortune. And too often those who do make a strike have not wisdom commensurate with their good fortune. Their earnestness to ascertain the name of the top card in the faro box, or their ambition to lay it straight, open in the middle, are characteristics not conducive to economy. So then we have the Old Prospectors' Home, where forty-niners and veterans of the Caribou trail smoke their pipes and talk of the mother lode which will be found some day. It is a pleasant place. But there is no reason for us to travel three thousand miles to see it. Some-thing just as good is provided nearer home.

At Ottawa there is an old Prospectors' Home maintained by the Federal Administration. Through its corridors wander snow bearded veterans of border fights, tottering heroes, who in days of yore travelled light in sleep and snow and rain. Often they were disappointed in their search. Often an enemy came upon them in the very moment of success. Yet they were not dismayed. With a laugh they picked up their kits and toiled onward to another likely spot. And even when fortune smiled the smile was only a passing one. They were not to see it. Some-thing of frowns. Prospecting through years of toil and trouble, prospecting for a new color in line strata, prospecting in the wilds of New Brunswick, prospecting in Gaspé, in Renfrew, in Algoma, in Annapolis, in Manitoba, prospecting in the West, in the Yukon, in the Yukon, in town halls, in schoolhouses, prospecting for Liberal votes. Year after year, decade after decade, prospecting, until the eye has grown dim, the natural force abated, the limbs feeble, the hair white or nighly thin on top. Then the motherly, tender-hearted Government says to these people, "Come and rest." And they recline upon crimson cushions for ever after. They sleep and eat and gossip of forty years ago, when politics were real and earnest. And they look with contempt on the young men of today. And above all they refuse to work. And all people call this noble charity, this Ottawa Old Prospectors' Home, the Canadian Senate.

The Asiatic Peril A Coming Problem

(Mail and Empire.)

British Columbia's objection to the immigration of large numbers of Japanese and her even stronger opposition to the incoming vast hordes of Chinese is well known. It is doubtful if the province, and indeed, barbarians. "Room for all!" Let them come no matter what their origin, for it is the view of this school. But there is another side to the question that must not be overlooked, namely, the outlook for the future.

This phase of the case is ably dealt with by an English writer, L. E. Neame, who has made a special study of the Asiatic. Mr. Neame says we are on the edge of a struggle between the white men and the men of Asia for the supremacy. It is not to be a fight with warships and guns, but a conflict in which personal and commercial pressure will play the directing part. Into the lands now held by the whites, the Asiatics, unless they are repelled, will come, and as they can underlive and underse the whites, they will ultimately make the existence of the latter impossible in these places, except under conditions as poor as those which an Asiatic can endure. In other words, the overplus from China and Japan, the millions from these empires who can live on next to nothing, will, if permitted, gradually take possession of the territories now occupied by the whites, and will thus dominate and overpower the ruling race.

The danger lies, first in the ability of the Asiatics to "underlive and underse" the whites and, secondly, in the absolute isolation of the Asiatic races. That the first danger point exists there can be little doubt. The standard of living in Asia is, and has been for years, dreadfully low. A man can exist, and does exist, on the very lightest food and his clothing is not a prime consideration. Housing is also not regarded as important. Too many Asiatics are satisfied with shelter and food. Few take the interest in home making that characterizes the whites. As a matter of fact, the conditions in Asia have produced a disregard of comfort, and even of necessities, that makes the work-

man from Asia an unfair competitor with the man who is accustomed to our civilization. Nor is it likely that association with the whites will alter the character of the Eastern people.

It is pointed out by Mr. Neame that all Asiatic races are bound to remain separate from the whites. "The masses of South- and South-Eastern Europeans who have entered the United States," says this writer, "will in time be absorbed in the population. The process may take a varying length of time with different nationalities; but, in the end, there will emerge the American people, and if their natural character becomes modified by infusion of alien blood. But no white race can absorb the Asiatic. The Eastern people always remain apart. You can never get rid of what Meredith Townsend called the dull uncomprehending, unimpassioned disease of Asiaticism for white men, just as good as provided nearer home."

Thus we have a race of men that can "underlive" the whites, and that are not liable to be brought up to the standard of living peculiar to the whites through marriage, or through the adoption of the practices of the whites. "Inevitably then," says Mr. Neame, "the Asiatic race, the white one, and the country of the country is the white man's country no longer. "The Asiatic increases and multiplies and swarms, and finally there is no room for the white man or work for him to do." Here, then, is the coming problem. Here is the question with which Canada will have to grapple. Are we going to permit the invasion of the country by other races, that can underlive the present occupants, or are we going to declare that the Dominion shall be the home of a white population? There can be little doubt as to the proper course to pursue.

In the conflict that is impending Canada must take care of her own future. To the Dominion a number of Asiatic large enough to influence the condition of the people, and to the standard of living, should be admitted. Upon immigration there should be restrictions. It should be made plain that this country is not to go to the aid of another Asia, but that, on the contrary, we propose to retain for Canada character as a home, not necessarily for one European race, but for such races as will become Canadian—uniting with Canadians, adopting the Canadian idea, and reducing the tone of our people, or impairing the comfort of our work people. Exclusive, or non-acceptance, it is not necessary to be. All that is needed is a firm adherence to the principle that all are welcome who, upon coming, will be one of us, and not against us.

Surprise Your Hair

There are many hair preparations with many promises of satisfactory results. Few take the interest in home making that characterizes the whites. As a matter of fact, the conditions in Asia have produced a disregard of comfort, and even of necessities, that makes the work-

The Odeur She Wanted.
She pointed to the pavement and clutched the arm of the woman who was with her.

"I have found it at last," she exclaimed. "Did you notice it? It was that indecorous violet perfume which I have been looking for all these years. The woman who just passed us had it. Do you suppose she would think I was crazy if I went after her and asked her what the name of it is?" "The word probably think you were insane," replied her companion. "But if you wish to know so much it would not do any harm to inquire."

She with the perfume had stopped for a moment preparatory to crossing the street.

"You will pardon me, won't you?" asked the seiler after rare scent. "But would you mind telling me the name of that wonderful extract you have and where you got it?"

"Certainly not," was the response as the woman threw back her cape and showed beneath a great ornate bouquet of fresh double roses.

Rains and Housekeeping.

"I wonder why a letter is bigger than a sealed document is supposed to be good enough to keep noise with," remarked a nation the other day, "while a minute and comprehensive intellect is supposed to be necessary in a woman who goes in for a career." I find my housekeeping gives employment to every faculty I have. If I don't put out all the brain power I own, things don't go well. Memory, executive ability, observation, foresight—are demanded in organizing and running a home. Whenever you find the domestic machine moving without a creak or a jar look for the clever brain of some woman behind it all. I've known girls to take the time that they were thrown away in better obliged to look after the details of a house. Stuff and nonsense. It wasn't too much mind they had for it, but not enough."

Analogy.

A teacher had a very dull pupil whom he found extremely difficult to instruct in the letters of the alphabet. "This is letter A," explained the teacher for the tenth time as he wrote it down on the blackboard. "And this letter B," he went on, putting down the second letter of the alphabet. "Now, my boy," he began, kindly and encouragingly, as he turned to the stupid boy, "let me see if you can remember them. What is this?" pointing to the initial letter of the alphabet.

"Let A," came the slow response from the dense scholar.

"And this," continued the teacher, pointing to letter B.

"Let'er alone," returned the pupil. Instantly, his stupid face lighted up with pleasure at his own quick reply.—Belmont Magazine.

The Turkish Mangal.

In most of the houses in Constantinople as well as in other cities of Turkey heating in winter is done by means of the so called "mangal." This consists principally of a receptacle for burning charcoal. A mangal may be nothing else than a simple brass or iron receptacle or may be quite an artistic and expensive workmanship. The charcoal is first thoroughly burned through, and when it no longer emits any flame or odor the mangal is brought into the room for purposes of heating. Sometimes it happens that proper attention is not paid to the burning charcoal, with not infrequent fatal results.

Force Exerted by the Heart.

The force exerted by the heart equals 120 tons lifted one foot. In other words, the work of the heart is equivalent to raising its own weight 20,000 feet in one hour. A strong man can raise himself but 1,000 feet in an hour. This enormous force, if exerted by the heart through a fixed rigid pipe, would shoot the blood along with each jerk at a rate of 200 feet a second. However, the arteries, being elastic, are distended by the jerk or beat of the heart, and when the heart pauses after the beat the contraction of the arteries sends the blood along in a steady non-intermittent flow, which averages about one foot a second.

Patmore's Wit.

In the early days of the Franco-Prussian war the Emperor William was in the habit of sending telegrams of a somewhat religious character to the queen. The late Coventry Patmore, the English poet, hit this off in the following apt:

By wit divine, my dear Augusta,
We've gained a battle—such a battle!
Ten thousand Frenchmen sent before
Prizes God from whom all blessings flow

No Time For Details.

An American speeding over the continent of Europe in his automobile was out of his chauffeur. "Where are we?" "In Paris," shouted the man at the wheel, and the dust flew. "Oh, never mind the details," irritably screamed the American millionaire. "I mean what continent?"

To Know Oneself.

How can a man learn to know himself? By reflection never, only by action. It is the measure in which they seek to do by duty shall they know what is in them. But what is thy duty? The demand of the hour.—Goethe.

The Condition.

"Do you think you could be comfortable on \$10,000 a year?" "Yes, I believe I could if the people next door hadn't moved from \$8,000 a year and my wife knew it."

The greatest pleasure is the power to give it.

Fall Trade in Boots and Shoes has begun

We have as usual made preparations for a big share of this line of business and when we say our stock is the largest in Strathcona we are here to back it up.

We carry the Barry for men who want something dressy; the McCready-Hamilton for good strong medium-priced every day and Sunday wear.

See our Storm Calf Tan Blucher, \$5.50 for men outside, at.....

Goodyear welt, double thickness insolated sole. We also carry a few lines of boys' good boots, something heretofore not carried in the city.

For Ladies, Misses and Children we handle "Smardon," the leader in style, quality and finish. Also the Bell and McCready.

We are behind all these goods and have the makers to our back.

At A. H. RICHARDS & CO.

PROMPT DELIVERY

Fillibusters Invade Venezuela

Georgetown, British Guiana, Aug. 20.—Much excitement has been caused here by the invasion of Venezuelan territory by Capt. Calder, in command of a small frontier force from British Guiana and by the seizure of a quantity of balata (the gum of the bullet tree used for insulating wires etc), which, it is alleged, has been collected on British territory. Capt. Calder's force went down the Berima river and crossed the boundary into Venezuelan territory, where Capt. Calder, at the point of the revolver, demanded that the Venezuelan commissioner give up the gum. The latter made a protest, however, to President Castro and the British consul here against the seizure of the balata and the invasion of Venezuelan territory.

Miners Memorial Fund

The following subscriptions to the fund for the erection of a memorial to the miners who lost their lives in the recent disaster are gratefully acknowledged—

Anthony's st. church collection, \$22.85

C. Stubbs (miner), 5.00

P.O. Strathcona.

Around the City.

The Hon. Frank Oliver, Minister of
Interior, left on the afternoon train for
the East.

J. W. Tipton was suddenly called to
Michell, B.C. yesterday, by wire, on
account of a friend of his having got
hurt in a mine.

The Holy Trinity Church Sunday
school picnic will be held tomorrow
afternoon at Walter's date. Mothers and
children are requested to be at the
church at one o'clock with their baskets.

Major E. A. Tremonger proceeded on
the afternoon train for a week's business
trip to Calgary. During his absence
Mr. A. G. Wilson is taking Major Tre-
monger's place in his office.

Those contemplating a day out of
town on the 31st cannot do better than
attend the political picnic in the new
park, Leduc. Everything free. Hot
and cold water provided. Bring your
baskets. Trains arrive at 10 a.m. and
leave at 2:15 and 10 p.m. Good duck
shooting in the lake close to town,
speaking to begin at 1 o'clock.

The scarcity of labor in this district
for harvest and railway work is becom-
ing a serious problem, and the Board of
Trade is asking the C. P. R. to extend
their harvest excursions to this point.
This morning the secretary of the Ed-
monton Board of Trade had a request
brought to his notice for a hundred men
for Grand Trunk construction work at
\$2.50 per day, but none could be hired,
and there are requisitions in Strathcona
today for twenty harvest hands, but
none can be found.

Uncle Tom's Cabin

Downie's Big Uncle Tom's Cabin
Show numbering 50 people, carrying
2 bands, a genuine pack of Siberian
bloodhounds, ponies, donkeys and so
forth, will give one night performance
under canvas in Strathcona on Tuesday,
August 27th. This is without doubt the
largest and most perfect organized Tom
Show that has ever travelled this or any
other country. Andrew McPhee, who
is the sole owner, is with the show him-
self, which is a sufficient guarantee that
the performance will be first class in
every respect, and fully up to the Mc-
Phee standard. Grand street parade
daily. Admission 25c and 50c.

The Lumber Combine Prosecutions

Calgary, Aug. 31.—The local lumber-
men met in the Liberal Club room to-
day to discuss the situation arising from
the prosecution proceeding under the
anti-combines enactment. It was de-
cided to retain R. B. Bennett as counsel
for the defence.

Information was sworn out by the
attorney-general's department in Ed-
monton yesterday and the defendants
are to be summoned to appear before
Inspector Worsley at the police barracks
in the capital on Thursday, Sept. 5. In-
formation was laid against W. H. Clark,
Edmonton; J. A. McDonald, Edmonton;
F. A. Prince, Calgary; F. D. Becker,
Calgary; A. M. Grogan, Calgary; W.
Stewart, Calgary; J. W. Irwin, Vegre-
ville; A. G. Grosse, Wetaskiwin; J. C.
Goudry, Calgary; William Dench, Ed-
monton; W. Barclay, Claresholm; and J. W. Mc-
Nichol, Lethbridge.

There are twelve distinct charges
against each defendant and as there are
twelve defendants there are 144 informa-
tions issued. It is expected that at
least ten witnesses will be called by the
crown at the preliminary investigation,
and each witness is being summoned
to give evidence on each of the 144 charges
laid so that there will be a start
with at least 144 subpoenas issued to witnesses.

W. A. Groat, N. G.
B. L. Abraham,
Secretary.

**Fielding and Brodeur
Coming Here.**

Ottawa, Aug. 30.—Hon. W. S. Field-
ing and Hon. L. P. Brodeur expect to
sail from Liverpool on the Algonquin
line boat which leaves on August 23.
They should be in Canada by the first of Sep-
tember. For the past two weeks Messrs
Fielding and Brodeur have been in Paris
negotiating with the French government
in regard to an improvement of the tariff
relations between Canada and France.
It is believed here that Canada will
shortly be given the same treatment by
Australia as is accorded to Great Britain.
In a tariff recently brought down by
the Australian government heavy duties
were imposed against imports and a
very slight preference was given to Great
Britain. Canada has asked Australia
that the offer of preference given to
Great Britain is still open to Australia
reciprocal treatment is accorded.

STRAYED
From my place east of Mill Creek, on
Sunday evening, small brown heifer,
about ten years old, horned, no brand
Red nose, four years old, one horn, and
one broken, had strap round neck with
tags attached.
J. E. COOPER,
Strathcona.
